

- 2.5 Gallons (9.46 L) - Net Wt. 26.1 lbs. (12.36 kg) - Model No. 57280
  - 30 Gallons (113.5 L) - Net Wt. 313.2 lbs. (148.32 kg) - Model No. 57281
- 10.44 lbs./gal.

# BIOPRO®

**PLUS 10% Surfactant**  
Soil Moisture Manager

**Reduces overall watering up to 50%**

**Composition:** 54% Humectants\*, 10% Surfactants, 36% Inert Ingredients

\*Sugar alcohols, polysaccharides and neutral salts of alpha-hydroxypropionic acid

**Application Instructions:**

**TURF**

**General Application Rate:** Apply 9 oz. per 1,000 sq. ft. (3 gallons per acre) by spray or drench once every three months, or as needed.

**Monthly Program:** Make an initial application of 9 oz. per 1,000 sq. ft. (3 gallons per acre). Make subsequent monthly application at 3 oz. 1,000 sq. ft. (1 gallon per acre).

For best results apply to wet soil. Water in with at least 1/10th of an inch of water within the first couple of hours to ensure it is washed off foliage and enters the soil. Immediately (or within 24 hours), follow with enough additional water to carry H3OPlus throughout the root zone. The amount of water required to carry H3O throughout the root zone is dependent on the soil texture and depth of the root zone of the treated area. For extreme dry spots, H3O may be applied at up to five times the general application rate either as a single treatment or in multiple applications.

**SEEDING, SODDING, SPRIGGING:** Follow "General Application Rate".

**TREES, SHRUBS, & INDIVIDUAL PLANTS:** Mix 2 oz. with 1 gallon of water and apply as a drench until root zone is thoroughly saturated. Trees should receive 4 to 8 oz of H3O Plus per diameter inch (DBH).

**Potted and Containerized Plants:** Mix 2 oz. with 1 gallon of water and apply as a drench until root zone is thoroughly saturated. Media should be dry enough to hold as much solution as possible.

**Flower and Vegetable Beds:** Mix 2 oz. with 1 gallon of water and apply solution as a drench to achieve a total of 1 gallon of H3O Plus concentrate per 4,000 sq. ft. of beds.

**CAUTION:** Keep out of reach of children. Harmful if swallowed. Avoid breathing. May be harmful if inhaled. Avoid eye contact. Avoid prolonged or repeated contact with skin. May cause irritation. Wash thoroughly after handling.

**Handling:** Store between 40-95°F (4.44-35°C). Avoid direct heat or fire. Decomposition may occur at high temperatures (above 225°F/107°C). Do Not Freeze!

**Conditions of sale:** The information on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, turf/crop conditions and all other factors are beyond the control of the seller.

**Not a Plant Food**

Manufactured in USA under one or more U.S. Patent Numbers: 5814123, 5865869

*A pre-mix "jar-test" is recommended to check compatibility of product combinations that have not been previously tested.*
